COMPÉTENCES

BACKEND

Spring Boot, Spring Cloud, Node.js, Express.js, NestJS (TypeScript), FastAPI

FRONTEND

React.js, Redux Toolkit, Axios, Next.js, React Native, Tailwind CSS

DATABASES

MongoDB, MySQL, PostgreSQL, JPA/Hibernate, TypeORM, Prisma

DATA & AI

Machine Learning (Regression, Classification), Web Scraping, Data Analysis, Ollama / Mistral / Groq, Streamlit

DEVOPS & CLOUD

Docker, Git/GitHub, GitHub Actions, Linux, Cloudinary, Render

INTELLIGENCE & STRATEGY

Strategic watch, Competitive intelligence, Quantitative studies, Startup ecosystem

PROFILE

Graduate student passionate about digital transformation, currently pursuing the **Professional Master's in Competitive Intelligence (VIC)** at ESEN Manouba, in collaboration with ISCAE Manouba. Holder of a Master's in Management Information Systems (Service Digitalization) and a Bachelor's in e-Business, I combine technical expertise in development (NestJS, React, Spring Boot) with a strategic vision of innovation to design high-performance, reliable and intelligent solutions.

EDUCATION

M2 Professional Master's — Competitive Intelligence (VIC) 2026 → Present
ESEN Manouba × ISCAE Manouba — university collaboration

M1 Professional Master's — Competitive Intelligence (VIC) 2025 → 2026
ESEN Manouba × ISCAE Manouba — university collaboration

M2 Professional Master's — Service Digitalization 2024 → 2025
ESSEC Tunis

M1 Professional Master's — Innovation & Project Management 2023 → 2024
ISIMS Sfax

Bachelor's in Management Information Systems (e-Business) 2020 → 2023
ESSEC Tunis

PROFESSIONAL EXPERIENCE

Final Year Project — Full Stack Developer Mar → Jun 2025
Habib Thameur Hospital, Tunis

Medical equipment management platform: operational monitoring and **Machine Learning predictive maintenance**. Stack: Java Spring Boot, Spring Cloud, MongoDB, React/Redux, JWT.

School Project — Web Development & Project Management Feb → May 2024
ISIMS Sfax

Task management application with **NestJS** (backend) and TypeScript, optimizing team project tracking.

Bachelor's Final Project — Web Development Feb → May 2023
BIAT, Tunis

Design and development of an incident management web application.

PROJECTS & ACHIEVEMENTS

🇹🇳 Quantitative Study — Startup Act Tunisia Live

Analysis of the **85 labeling sessions** (Law 2018-20, 2019-2026): 2,958 applications, 1,311 labels, 623 pre-labels, 80.6% conversions, 20/85 errors corrected from official PDFs. Python / Chart.js / Leaflet dashboard.
